

```
else  
    S.o.pln("Yes");  
S.o.pln("No");
```

Day-5

Java: Practicing loops

for(initialization; condition; updation)

without initialization

↱

int i = 0

for(; i <= 10; i++)

S.o.pln(i);

↳

without condition

int i = 0

for(; ; i++)

if(i > 10)

break;

S.o.pln(i);

↳

without updation

int i = 0;

for(; ;)

if(i > 10)

break;

S.o.pln(i);

i++;

↳

Given a value of N, print only twice numbers from 1 to N that have sum of digits = K
